

Wanna See This Near Your **KIDS' SCHOOL?**

It may seem farfetched. But if there was a proposal to locate a prison or a half-way house near a school there's a good chance that soon you won't even know about it until it's too late. They're trying to change our city charter so that important notices – like locating controversial facilities – no longer have to be published in the newspaper where you are likely to see them. Instead, they want to post them only on the city's website. Tampering with the city charter is a bad idea that'll make it **HARDER for us to find out critical news** effecting our homes, neighborhoods, schools, and jobs...but make it **EASIER to post fraudulent information on-line.**

Vote NO on Wayne Proposals 1 & 2

*Sacrificing our right to know is just **too high** a cost.*
